Supplemental Fig. S1. A scatter plot between estrogen receptor (ESR) genes and thyroid cancer-related gene signatures. Associations of (A) thyroid differentiation score (TDS), (B) \textit{BRAF}^{V600E}-Ras score (BRS), and (C) M2 macrophage score with \textit{ESR1}, \textit{ESR2}, and \textit{ESR1/2} ratio were displayed with \textit{BRAF}^{V600E} status and approximate age. NA, not applicable.
